1. A profit indicator defined by Ajinomoto for administrative purposes.

(Sales - Cost of sales - Selling expenses, Research & development expenses and General & administrative expenses + Share of profit of associates and joint ventures)

2. In the fiscal year ended March 31, 2020, the Ajinomoto Group was classified the packaging business under discontinued operations. Together with the logistics business, which had been previously classified under discontinued operations, profit from discontinued operations in the condensed quarterly consolidated statements is presented separately from the profit from continuing operations, and sales, business profit, and profit before income taxes are amounts related to continuing operations.

Ajinomoto Co., Inc. Consolidated Results Third Quarter Ended September 30, 2020 (Page2)

In the nine months ended December 31, 2020, the Company's consolidated sales fell 3.3% year-on-year, or ¥27.4 billion, to ¥794.9 billion. This was because there was a continued decline in sales of restaurant and industrial use products mainly in Seasonings and Foods and Frozen Foods due to the impact of lockdowns and other measures in conjunction with the COVID-19 global pandemic, even though a trend of recovery can be seen in demand for products for use in foodservice, while sales of home-use products increased due to the expansion in at-home dining demand. Business profit increased 19.9% year-on-year, or ¥16.6 billion, to ¥99.9 billion, owing to the effect of increased sales of home-use products and lower expenses due to a reduction in marketing and associated activities in Seasonings and Foods and Frozen Foods during the lockdown and stay-at-home periods, and a large increase in profit for animal nutrition products in addition to other factors including the effect of recording impairment loss related to the trademark rights of Promasidor Holdings Limited ("PH") in the same period of the previous year.
