

Ajinomoto Co., Inc. Announces Executive Personnel Changes of President and Executive Officers

TOKYO, February 3, 2025 – Ajinomoto Co., Inc. (“Ajinomoto Co.”) decided on the changes of its President and Executive Officers at a Board of Directors’ Meeting held on February 3, 2025. Based on its Nomination Committee’s selection consisting only of Independent Outside Directors, the change of its President will be effective from February 3, 2025. Based on the selection on other Executive Officers by the incoming President, changes in other Executive Officers will be made effective from April 1, 2025.

Shigeo Nakamura, the current Executive Officer & Vice President, General Manager, Latin America Division, was appointed as Representative Executive Officer, President & Chief Executive Officer (CEO), and Taro Fujie was appointed as Executive Officer and Chairman of Company.

[Reasons for the change in leadership being made effective today]

Taro Fujie experienced a health issue in late December last year. Although he is recovering steadily, it is diagnosed that a certain amount of time is required for full recovery. In order to minimize any risk of vacuum being created in the management, Fujie proposed to step down from his current position as President & CEO. In consideration of the situation, the Nomination Committee made the decision to appoint Shigeo Nakamura as President & CEO as of February 3, 2025, based on the discussion on emergency CEO succession plan.

[Towards further acceleration of ASV management and sustainable enhancement of corporate value]

The Ajinomoto Group is promoting Medium-Term ASV^{*1} Management, and focuses on sustainable enhancement of corporate value by contributing to the well-being of all human beings, our society, and planet with “AminoScience^{™2}”, which we uphold as our Purpose.

Since he joined the Ajinomoto Group, Mr. Nakamura, the new President & CEO, has led the launch and growth of the Electronic Material business centering on Ajinomoto Build-up Film (ABF). He also has a long track record of achievements in reinforcing the business infrastructure and driving significant growth in the Food Products business and the Bio & Fine Chemicals business as Executive Officer & Vice President, General Manager, Latin America Division and President, Ajinomoto do Brasil Industria e Comercio de Alimentos Ltda. Notably, Mr. Nakamura is the first President & CEO of Ajinomoto Co. with a scientific background, and taking into account his potential to further accelerate the Medium-Term ASV Management and drive the reform of corporate culture by leveraging on his liveliness, agility, and the driving force of change, the Board of Directors judged that he is most suited to enhance corporate value.

Mr. Fujie will support him as Executive Officer and Chairman of Company to expedite the new management structure, and for the new President & CEO to fully perform his role.

Talented individuals who demonstrate leadership in business optimization and can create new value for realizing Our Vision for 2030 will be appointed as Executive Officers and work as a team under the new President & CEO to further accelerate Medium-Term ASV Management. For continued progress in promoting

Diversity, Equity and Inclusion, in FY2025, four female Executive Officers will be appointed, increasing from three, and two non-Japanese Executive Officers will continue in their roles as part of an overall effort to realize the sustainable enhancement of corporate value.

[Message from President & CEO, Shigeo Nakamura]

Carrying on ASV Management and Purpose, I will do my best with all my heart and soul to realize Our Vision for 2030 ahead of schedule. I will achieve this by further evolving and systemizing the High-Speed Development System by anticipating the future needs of customer and markets, where my experience and strength lies. In addition, I will refine the uniqueness of “AminoScience” and intangible assets such as human resources, technology, customers, and organization, by developing more diverse and creative human assets, so that we can sustainably enhance our corporate value as a company contributing to the well-being of all human beings, our society, and planet. Furthermore, I will work to evolve our company into developing a culture that allows employees and organizations to fully demonstrate their inherent abilities and take on challenges and grow independently and to become the “No. 1 organization of high employee engagement” by encouraging people to take on challenges without fear of failure and improving the quality of those challenges.

*1 ASV (Ajinomoto Group Creating Shared Value) is about co-creating social and economic value through business. It is the fundamental concept behind Ajinomoto Group’s mission to fulfill its “vision for the future” and Purpose.

*2 “AminoScience” is a collective term for the various materials, functions, technologies, and services derived from the research and implementation processes with a rigorous focus on unlocking the power of amino acids. It also refers to the Ajinomoto Group’s unique scientific approach to connect these to resolving social issues and contributing to well-being
